## **BOOK SYNOPSIS**

"This, quite simply, is the most devastating and detailed investigation into a question that has remained a no-no in the current debate on American torture in George Bush's war on terror: the role of military physicians, nurses and other medical personnel. Dr. Miles writes in a white rage, with great justification--but he lets the facts tell the story."--Seymour M. Hersh "Steven Miles has written exactly the book we require on medical complicity in torture. His admirable combination of scholarship and moral passion does great service to the medical profession and to our country."--Robert Jay Lifton, author of *The Nazi Doctors: Medical Killing and the Psychology of Genocide* and *Home from the War: Vietnam Veterans - Neither Victims nor Executioners*
